The course will be mostly hands-on and we'll be using a camera, tripod, lighting kit, smartphone and iPad/GoPro. You might, however, like to bring along your own equipment/phone/GoPro etc.

If you use an iPhone, the app we use is Filmic

Pro: <https://itunes.apple.com/gb/app/filmic-pro/id436577167?mt=8> . Don't, however, feel you need to buy it right now. It's not essential for the course.

We will also be covering the basics of editing, using Hit Film

Express: <https://hitfilm.com/express>

This is free. Again, it's not essential you have it for the course but you might find it useful - particularly when we go through editing examples.

If you don't have any of the above, don't worry!
